

FLEXSTYLE® SILICONE PAD SPECIFICATION SHEET

WORLDEMBLEM®

NEEDED FOR

FlexStyle Emblems:

- Textured
- Domed
- Flat
- Beveled
- Holographic

USES

- The FlexStyle Silicone Pad is used to protect the integrity of your FlexStyle emblem. In order for the textures to stay intact, there needs to be a soft material covering it to dissipate the pressure exerted by the heat press.
- The pad also helps to prevent scorching of certain fabric, such as 100% polyester performance fabric.

AVAILABLE SIZES

- 6" x 5"
- 7" x 10"
- 8" x 5.5"
- 18" x 21"
- 39" x 39"

RECOMMENDATION

Dark fabrics may bleed onto pad. To prevent staining, WE recommends not using a pad previously used on dark fabric on light fabric.

Refer to www.worldemblem.com/technical for more information and videos.
