

HAT PRESS MOLD SPECIFICATION SHEET

COMPATIBLE PRESSES

- Hotronix® Auto Cap Press
- MAXX Digital® Cap Presses

USES

- To avoid marks caused by standard bottom platen when hats are heat pressed.
- Application of sublimated patches on hats.
- Application of embroidered patches on hats.
- Application of the FlexStyle® series of products on hats.

LIMITATIONS

- Not intended for application of transfers or thin products.
- Not intended for emblems wider than 3.5" or taller than 2.5" which is the standard size of patches for hats.
- The product will fit the most common hat profiles, but is not designed for all hat profiles.

DISCLAIMER

The shape of the mold does not match the shape of the top platen. The shape was specifically designed to match the shape of the profiles of most hats.

INSTALLATION

Insert the Mold in the Hat Press.

Refer to www.worldemblem.com/technical for more information and videos.
